

RCSU Rugby activity report

- Try to get out of the incubator this year
- Me and Stephen are going to complete the incubator report soon
- From the fresher's fair and the Rugby union email list we will be able to make a RCSU email list/ fb group from which we can communicate and organize events with our members. We will also use this to get more members for when we try to leave the incubator.
- Events:
 - Sparks cup, was a big success last year at Roslyn Park. We will organize that again probably around the same time but not the day of summer ball. We need to speak to RSM and CGCU captains to discuss Sparks Cup. Discuss the funding of the event as it was mainly RCSA funded last year, we will try to get CGCA and RSMA more involved.
 - Other future events we have possibly planned:
 - Want to have a tour to Brighton/ Oxford where we will travel down play a game against a local team and then have a night out there. We were thinking the best time for this would be late January or early February.
 - Touch tournament could be done either internally between RCSU or externally between CGCU and RSM, it could potentially be a preliminary training day for Sparks Cup.
- We don't have any money, events we do run will be done at low cost!
